- Top 30 finalists of RMIT Business Analytics Champion 2024

EXPERIENCE

MB Ageas Life (April 2025 – August 2025)
Data Intern, Digital and Customer Experience Department

- Collaborated with cross-functional teams to fulfill ad-hoc data requests by writing complex SQL queries and delivering actionable dashboards.
- Built a scalable data preprocessing pipeline to support customer segmentation and clustering models, enhancing personalized marketing strategies.

ABI Game Studio (July - November 2024)
Intern Data Analyst

- Designed and developed dynamic dashboards to visualize key performance metrics

PROJECTS

Following items are clickable on PDF

- **Graduation Thesis: IELTS Essay Scoring and Feedback Generation**
Graduation thesis project focusing on automatic evaluation of IELTS Writing Task 2 essays. The system predicts 4 band scores and generates human-like feedback.Used LLM prompting and fine-tuned Mistral-7B with LoRA on a dataset of 120K+ essays and examiner feedback. Achieved high-quality feedback generation using OpenChat 3.5 few-shot prompting for data augmentation.
- **Credit Default Risk**
An assignment of Risk Management course, classifying default and non-default customers using German Credit Data. SMOTE was used to rebalance while Weight of Evidence and Information Value were applied for feature selection. A result of 0.84 roc-auc score and accuracy of 0.83 was achieved.

SKILLS

Programming language Python, SQL
Libraries & tools Power BI, Pandas, Numpy, Scikit-learn, Keras, Matplotlib, Seaborn, Apache Spark

CERTIFICATION

IELTS 8.0	<i>Issued September 2020</i>
HackerRank Python Certification (Basic)	<i>Issued May 2024</i>
HackerRank SQL Certification (Advanced)	<i>Issued August 2025</i>
